

4 October 1982

NOTE FOR:

STAT

FROM: Walter Elder

SUBJECT: Requirements and Priorities

1. The first thing to do is to establish by DCI Directive the new way of doing business. That's the point of the attached draft.

2. Operational details, including nomenclature, can be dealt with in the revised attachment. The nature of the DCID 1/2 Committee's work is not changed all that much, but the role of the SIG(I) needs to be given a primary place. The IPC charter will need reviewing, too. Isn't it nearly time to consider a DCI Directive for the IPC? Isn't it also time to consider how the SIG(I) might react to dealing with  requirements?
